**Backend** Node JS,Express Js  
**Database** MongoDB,SQL basics  
**Testing** Manual Testing

## Experience

### Tech Mahindra Ltd

Sep 2024 - present

Associate Software Engineer

Client: Parker Hannifin Corporation. Sep 2024 - present

- Ensured responsive design across devices using HTML, CSS, and JavaScript for optimal user experience.
- Developed reusable and modular UI components to enhance maintainability and scalability.
- Collaborated with cross-functional teams including designers, product managers, and backend developers for seamless integration.
- Optimized frontend and backend performance to improve load times and responsiveness.
- Integrated third-party APIs and implemented dynamic data rendering in React applications.
- Used Git for version control and collaborated on code reviews to maintain code quality.
- Applied best practices in accessibility and SEO to improve usability and visibility.
- Implemented form validation, error handling, and user feedback mechanisms for robust UX.
- Used tools like Postman for API testing and debugging during development.
- Participated in daily stand-ups and sprint planning as part of an Agile development process.

### Nerds and Geeks Pvt Ltd.

March 2024 - July 2024

Software Intern

- Collaborated with the development team to build and maintain responsive web applications using modern frontend technologies.
- Translated UI/UX designs into functional components using HTML, CSS, JavaScript, and React.js.
- Integrated RESTful APIs to fetch and display dynamic data efficiently.

## Education

### Mohan Babu University

Dec 2021 - June 2024

B-Tech Electrical and Electronics Engineering

### Certifications

- Microsoft Azure az-900
- Javascript,React,CSS,Bootstrap from HACKER RANK

## Projects

### Arthur Library project

Mar 2025- present

- Contributed to the development of Arthur Library, a collaborative project focused on building reusable React components for scalable application design.
- Worked with a team to ensure modular architecture, code consistency, and maintainability across shared UI components.

### Grossorie website

Feb 2025 - March 2025

- Developed a full-featured grocery website using MERN stack, implementing user authentication, product listing, and cart functionality.
- Integrated RESTful APIs and responsive UI to ensure seamless user experience across devices and platforms.

### Appointment Booking App

July 2025 – Present

- Designed and developed an Appointment Booking App using MERN stack with features like user authentication, scheduling, and admin controls.
- Ensured responsive design and seamless API integration for real-time booking and data management across devices.
